Alexandria, VA 22314

Sir:

In response to the Office Action dated September 7, 2005, and the requirement for an election of species therein, applicants hereby elect the first species, and within the first species, subspecies 1B (FIG. 3). It is believed that claims 1, 18-23, 30, 33-35, 48-50 and 52-55 encompass the elected subspecies.

The Examiner is encouraged to examine the broadest possible scope of invention indicated by the elected species.

In accordance with M.P.E.P. § 803.02, the Examiner is reminded that, should no prior art be found which renders the invention of the elected species unpatentable, the search of the remainder of the generic claim(s) should be continued in the same application. It is improper for the Patent and Trademark Office to refuse to examine in one application the entire scope of the

claims therein unless they lack unity of invention. The generic claims herein have not been alleged to lack unity of invention.

Favorable action is earnestly solicited.

Respectfully submitted,

---
